

# HIMENDRA FERNANDO

Software Engineering Intern | Computer Science Student | Full-Stack Development

0223981252 | Hamilton, NZ | [fernandohimendra@gmail.com](mailto:fernandohimendra@gmail.com)

[github.com/HimendraFdo](https://github.com/HimendraFdo) | <https://www.linkedin.com/in/himendra-fernando/>

## Professional Statement

---

Computer Science student at the University of Waikato with an A+ average and hands-on full-stack development experience building React, Next.js, TypeScript, Python, Java, Prisma, and PostgreSQL applications. Developed authenticated workflows, validated APIs, reusable components, charts, and tested features for a deployed personal analytics platform. Seeking a software engineering internship focused on full-stack development, backend systems, or data-driven web applications.

## Technical Skills

---

**Languages:** Python, Java, TypeScript, JavaScript, HTML, CSS, SQL

**Frontend:** React, Next.js, Tailwind CSS, responsive design, reusable components

**Backend and Data:** Prisma, PostgreSQL, Neon, API routes, CRUD workflows, data validation, Zod

**Testing and Tools:** Git, Vitest, Vercel, unit testing, deployment, data visualization, Recharts

**Computer Science:** Data Structures and Algorithms, Object-Oriented Programming (OOP), software engineering principles

## Projects

---

### Personal Analytics Dashboard | Full-Stack Analytics Web Application

- Built and deployed an authenticated Next.js application with Clerk, Prisma, PostgreSQL/Neon, and Vercel for logging study, finance, health, and personal entries.
- Implemented validated CRUD workflows using TypeScript, Zod, and Prisma to support reliable data entry and database-backed records.
- Created filtered history views, summary cards, and Recharts visualizations to help users review activity patterns and personal metrics.
- Developed reusable React components with Tailwind CSS and added Vitest coverage for key utility and validation logic.

## Education

---

### Bachelor of Science in Computer Science | The University of Waikato | Hamilton, NZ | In progress

- Current A+ average.
- Relevant coursework: Software Engineering, Artificial Intelligence, Data Structures and Algorithms, Programming in Java, and Programming in Python.

## Professional Experience

---

### Grocery Assistant | New World Te Rapa | Hamilton, NZ | Jan 2025 - Present

- Coordinated with team members in a high-volume retail environment while maintaining reliable daily operations under time pressure.
- Prioritized customer requests, stock checks, and repeatable workflows while communicating clearly across team handoffs.

### Fresh Foods Assistant | New World Te Rapa | Hamilton, NZ | Feb 2024 - Jul 2024

- Handled customer questions and product-related issues with clear communication and a solution-focused approach.
- Worked with colleagues to maintain efficient workflows, adapt to changing priorities, and meet operational expectations.
- Built reliability and detail orientation through quality checks, process consistency, and customer-facing responsibilities.

## Activities and Leadership

---

### Lead Graphics Designer / Board Member | University of Waikato Sri Lankan Association (UWLSA) | Hamilton, NZ | Jan 2026 - Present

- Designed posters and banners for UWLSA events and fundraisers, supporting campaigns that raised over NZD \$2,000 for club activities.
- Carried out a Software-Development Lifecycle like process to create the posters including showing demo posters.
